

Custom Wireform Manufacturing

If you can't find a part that will fit your needs, we can create it.

We can custom manufacture:

- Connector Contacts
- Spring Contacts
- Test Points
- Terminals
- Jumpers
- Retaining Clips
- Ground Clips
- Shielding Contacts

Specifications:

Materials:

Round Wire: .012" - .040" diameter wire

Flat Wire: .010" - .030" thickness, Width up to 3/8"

Maximum Blank Length: 3"

Wire Alloy: Copper, Brass, Phosphor Bronze, Beryllium Copper, Copper-Nickel-Tin

Our Capabilities Include: Product Design Engineering, In-House Tooling, Precision Heat Treatment of Beryllium Copper, Radial Lead Taping, Surface Mount Taping

For over forty years, Components Corporation has specialized in wireform interconnect products for the electronic packaging industry. Through the production of our patented DIGI-KLIP, printed circuit connector and related products, we have developed a unique capability in wireform fabrication. Applying our knowledge of interconnect technology and experience in forming precision alloy materials, we have produced many novel and low cost tooling techniques to provide custom wire devices at competitive prices.

We invite you to take advantage of our expertise. Provide us with a drawing or sketch of your requirements and we will supply you with an exact quotation, specific to your needs and within your budget.

Certificate of Compliance with Directive 2002/95/EC RoHS and REACH Regulations EC 1907/2006

This is to certify that Components Corporation designs, manufactures and supplies products to our customers that are in compliance with RoHS Directive 2002/95/EC and REACH Regulations EC 1907/2006. This also pertains to procurement of raw material, component parts and processes.
